# Survey Method

On May 26, 2015, the South Dakota Criminal Statistics Analysis Center (SAC) surveyed sheriff offices in the state. A survey accompanied by instructions was sent to all sheriff offices via email attachment.

This was the 16th time the SAC compiled statewide management data pertaining to South Dakota sheriff offices. The results of this survey are intended to provide sheriffs with a valid means of comparing expenditures and resources of offices across the State. In addition, the results should provide the sheriffs with a substantial basis from which to justify future managerial decisions.

Currently, there are 66 sheriff offices in South Dakota (this figure does not include tribal agencies). Forty offices returned surveys yielding a total response rate of 61%.

The survey instrument is a self-report completed by the sheriff or office staff. All questions were designed to be objective; however, some questions may have been subject to different interpretations. Thus, this report can only reflect summary results that are as valid and accurate as the data provided by each office.

It should also be noted that salary data throughout this report are approximations. Due to the number of personnel at any given rank and the diverse salaries relative to each officer, such approximations were necessary in order to perform overall summary calculations.

The completed questionnaires were reviewed for completeness and reasonableness by the South Dakota Criminal Statistics Analysis Center staff. If you have any questions regarding this information, please call Brenda Manning, Criminal Statistical Analyst, at (605) 773-6312 or e-mail Brenda at [brenda.manning@state.sd.us](mailto:brenda.manning@state.sd.us).

# Number of Officer(s) and Average Salaries

The offices were asked to report the total number of their full-time sworn personnel by rank and to give the current annual salary for each rank. If there were more than one officer at a given rank, offices were asked to report the average salary for the position. The following table illustrates this breakdown.

## Education

Since October 1, 1971, the Law Enforcement Standard and Training Commission require a high school diploma, or the equivalent (GED), before any officer may be enrolled in the Officer Certification Course. This course is necessary for certification as a law enforcement officer. Individual offices may have further minimum requirements for education to get hired or to achieve specific ranks within their particular agency. The following table depicts the highest level of education attained by the full-time, sworn personnel by office.

# Insurance Benefits

South Dakota sheriff offices provide a wide variety of insurance plans for officers and their families. Many offices pay for these plans in full or in part, thereby reducing the financial burden on each officer. The following table illustrates the types of insurance and the level of coverage provided to the officer and his/her family for each Sheriff Office.

# Weapons

## On Duty Handguns, Rifles and Machine Guns

Offices were asked to report the number and caliber of the office issued handguns, rifles, and machine guns used by sworn personnel on-duty. Some offices do not issue guns; the guns are officer owned.
